

VIKAS COLLEGE OF ENGINEERING & TECHNOLOGY, NUNNA

DEPARTMENT OF MECHANICAL ENGINEERING

Date: 21/12/2020

Organized by : DEPARTMENT OF MECHANICAL
Name of the program : A webinar on "Advanced sketching and solid Modeling"
PLATFORM : You Tube Streaming
Date & Time : 21/12/2020 & 10.00AM TO 1.30PM
No. of participants : 120

Report On Work Shop:

The starting of Webinar all the faculty members were given a brief outline about contents of the Webinar and various queries about the scope were answered. The Webinar has started with detailed introduction about importance of "Advanced sketching and solid Modeling" by resource person **Dr.P.Sateesh Kumar**.

Dr.P.Sateesh Kumar advised the participants to have a sound knowledge about how to create advanced sketches using curved driven patterns in solid modelling and their modeling for those who want to pursue career in the area of research. The convenor briefly introduced participants to the Webinar topic "Advanced sketching and solid Modeling"

RESEARCH AND DEVELOPMENT CELL

Date: 17/06/2020

Organized by : Research and Development
Name of the program : A webinar on "ELECTRIC VEHICLE POWERTRAIN MODELING AND SIMULATION"

PLATFORM : YOUTUBE LIVE STREAM

Date & Time : 17/06/2020 and, 2 TO 3:30pm

No. of participants : 200

Report on webinar:

Before the streaming of webinar all the faculty members were given a brief outline about contents of the webinar and various queries about the scope were answered. The webinar has started with detailed introduction about importance of modelling and simulation in product design and development by resource person **Mr Suraj S D of Decibel Lab Pvt.Ltd Bangalore**.

Mr.Suraj advised the participants to have a sound knowledge about modelling and simulation especially for those who want to pursue career in product design. The convenor briefly introduced participants to the webinar topic "ELECTRIC VEHICLE POWERTRAIN MODELING AND SIMULATION"

Objectives of the Program:

- (1) To impart basic knowledge about modeling and simulation among participants.
- (2) To make participants aware about the importance of Modeling and simulation in present industry and research establishments.
- (3) To make students familiar about the recent advancements in the field of modeling and simulation
- (4) To help selecting suitable research methodologies for the UG/PG student's projects.
- (5) To understand preparation of detailed project report (DPR)

Program Outcome: The program provided the opportunity for young engineers a career option in product design and development. They learned in detail about electric vehicle power train modelling and simulation.

RESEARCH AND DEVELOPMENT CELL

Date: 04/07/2020

Organized by : Research and Development
Name of the program : ONE DAY WEBINAR ON "CAREER OPPORTUNITIES AND RECENT DEVELOPMENTS IN NON-DESTRUCTIVE TESTING"
PLATFORM : YOUTUBE LIVE STREAM
Date & Time : 04/07/2020 and, 2 TO 4pm
No. of participants : 200

Report on webinar:

Before the streaming of webinar all the faculty members were given a brief outline about contents of the webinar and various queries about the scope were answered. The webinar has started with detailed introduction about NDT by the resource person **Mr.V.J.Bharath Kumar** of **VIDAL NDT** Vijayawada.

Mr.Bharath advised the participants to plan their own business/industry after their graduation. He addressed the role of NDT in industry and entrepreneur opportunities in NDT, product development. The convenor explains the importance and various procedures of NDT in his industry.

Objectives of the Program:

- (1) To impart basic knowledge about non-destructive testing among participants.
- (2) To make participants aware about the importance of NDT in present industry and research establishments.
- (3) To make students familiar about the recent advancements in the field of NDT
- (4) To help selecting suitable research methodologies for the UG/PG student's projects.
- (5) To understand preparation of detailed project report (DPR)

Program Outcome: The program provided the opportunity for young engineers a career option in Non-Destructive Testing. They learned various testing and research methods in NDT.

No. of participants : 229

The state of the world in 2020 is unlike anything we have experienced before, and it's trickled down to have an impact on the IT and security world. Download this report to understand the most pervasive threats and how they attack organizations at their email perimeters, from inside the organization (through compromised accounts, vulnerable insiders, social engineering), or beyond the organization's perimeters (the domains they own and their brands via impersonation). Use this report as the guide helping to drive continuous improvements to your cyber resilience strategy.

Python is an interpreter, object-oriented, high-level programming language with dynamic semantics. Its high-level built in data structures, combined with dynamic typing and dynamic binding, make it very attractive for Rapid Application Development, as well as for use as a scripting or glue language to connect existing components together. Python's simple, easy to learn syntax emphasizes readability and therefore reduces the cost of program maintenance. Python supports modules and packages, which encourages program modularity and code reuse. The Python interpreter and the extensive standard library are available in source or binary form without charge for all major platforms, and can be freely distributed.

Organized by : Department of CSE
Name of the program : Robotics
Venue : Online Class
Date & Time : 31/07/2020 to 02/08/2020 & 10AM to 4PM
No. of participants : 173

Robotics, design, construction, and use of machines (robots) to perform tasks done traditionally by human beings. Robots are widely used in such industries as automobile manufacture to perform simple repetitive tasks, and in industries where work must be performed in environments hazardous to humans. Many aspects of robotics involve artificial intelligence; robots may be equipped with the equivalent of human senses such as vision, touch, and the ability to sense temperature. Some are even capable of simple decision making, and current robotics research is geared toward devising robots with a degree of self-sufficiency that will permit mobility and decision-making in an unstructured environment. Today's industrial robots do not resemble human beings; a robot in human form is called an android.

Resource Person : Mr.Dr.A.Krishna Mohan
Date & Time : 19/12/2020 & 10AM to 4PM
No. of participants : 28

Data Science with Python by first understanding of data science. Data science is all about finding and exploring data in the real world and using that knowledge to solve business problems. Some examples of data science are:

Customer Prediction - System can be trained based on customer behavior patterns to predict the likelihood of a customer buying a product

Service Planning - Restaurants can predict how many customers will visit on the weekend and plan their food inventory to handle the demand

Report on Faculty Development Program

Date: 12.02.2019

Name of the Department: Electronics & Communication Engineering

Title of the Seminar: Introduction to High Frequency Simulation Software (HFSS)

Date (s): 12.02.2019 – 13.02.2019

Venue: ECE Seminar Hall

Description:

A two day Faculty Development Program was conducted on the topic "Introduction to High Frequency Simulation Software" for the faculty of ECE department in college campus from 12.02.2019 to 13.02.2019. For this program **Dr. T SUDHEER KUMAR**, Professor, Dept. of ECE, attended as Resource Person and explained about the designing of antenna by using HFSS software. He also explained about the various parameters that can be evaluated which will give us the performance of the designed antenna. He clarified the doubts of the faculty who attended the FDP. He told that the field of Antenna is having great cutting edge in forthcoming days.

Total **25** faculty members have attended for this faculty development program.

Date & Time: 28/12/2019 9.30AM to 01.00 PM

No. of participants: 28

Speaker : SRI.B.NARESH, Assistant Professor, Department of EEE, JNTUKU COLLEGE OF ENGINEERING, KAKINADA.

Report on workshop:

The faculty participants that if faculty wants to develop themselves and their students, then attending such faculty development programmes would enhance their skills of teaching concepts practically. Sir further shared that it helps to improve the performance of faculty in teaching and highlighted the importance and objectives of organizing faculty development programmes. He briefed the participants about the subjects chosen for the FDP and highlighted the reasons and importance of the same.

He shared few very important aspect to be considered while teaching-learning process. He highlighted the importance learning and gave idea about domains of learning i.e. cognitive, affective, psychomotor and interactive. He shared his knowledge with knowledge with participant using by power point presentation and various technique like giving examples etc. It helped to make subject fully understand and created interest among the participant.

Sri.B.Lakshmana Nayak, HOD/EEE proposed the vote of thanks to the chief guest.

Date & Time : 18/09/2018 & 10AM to 4PM
No. of participants : 22

Artificial Intelligence, Machine Learning, and Deep Learning are popular buzzwords that everyone seems to use nowadays.

A large number of companies claim nowadays to incorporate some kind of "Artificial Intelligence" (AI) in their applications or services.

But artificial intelligence is only a broader term that describes applications when a machine mimics "cognitive" functions that humans associate with other human minds, such as "learning" and "problem-solving".

Speaker : Dr.R. Srinivasa RAO, Professor, Department of EEE, JNTUKU COLLEGE OF ENGINEERING, KAKINADA.

Report on workshop:

The Speaker motivated the faculty to take research work and quoted many examples in the Electrical & Electronics Engineering for selecting/Identifying the research problems. He focused on the role and importance of shunt/series capacitor placement in distribution systems. Also discussed about the characteristics of transmission and distribution system and their design i.e size and type of the conductors to be selected for less losses in the system. He discussed the how research work can be extended by giving an example of distribution network reconfiguration problem; how feeder reconfiguration is done using met heuristic techniques. He also delivers different new techniques in power system network.

అంబేద్కర్ ఓవర్సీస్ విద్యానిధిపై అవగాహన

నున్న(విజయవా గ్రామీణం), న్యూస్టుడే: నున్న గ్రామం లోని వికాస్ కళాశాలలో అంబేద్కర్ ఓవర్సీస్ విద్యానిధి కార్యక్రమంపై ఎస్సీ, ఎస్టీ విద్యార్థులకు అవగాహన కిబిరం ఏర్పాటు చేశారు. ఈ కార్యక్రమంలో జిల్లా సాంఘిక సంక్షేమ శాఖ డిప్యూటీ డైరెక్టర్ ఎస్.పుష్పలత పాల్గొని మాట్లాడారు. ప్రభుత్వం ప్రవేశపెట్టిన ఎన్టీఆర్ విద్యానిధి పథకం ద్వారా విద్యార్థులకు చాలా మేలు జరుగుతుందన్నారు. చాలామంది ఎస్సీ, ఎస్టీ వర్గానికి చెందిన పేద విద్యార్థులకు విదేశాల్లో ఉన్నత విద్య అనేది ఒక స్వప్నంగానే ఉండిపోతుందని, ప్రభుత్వం ప్రవేశపెట్టిన ఈ పథకం ద్వారా చాలా తక్కువ ఖర్చుతో ఉన్నత విద్యను పూర్తి చేసుకునే అవకాశం ఉందన్నారు. ఈ పథకంలో విద్యార్థులకు ఉన్నత విద్య నిమిత్తం

మాట్లాడుతున్న పుష్పలత తదితరులు

రూ.10 లక్షలు ప్రభుత్వం చెల్లిస్తుందని, తర్వాత ఉన్నత విద్యను అభ్యసించడానికి అవసరమైన శిక్షణను కూడా ప్రభుత్వం అందిస్తుందని చెప్పారు. కార్యక్రమంలో కళాశాలల వైస్ చైర్మన్ నీరెడ్ల సత్యనారాయణరెడ్డి, ప్రిన్సిపల్ బి.రమణ, బి.రామమోహనరావు, రామారావు తదితరులు పాల్గొన్నారు.
