Description	<p>A campaign to plant trees has been arranged by the Vikas College of Engineering and Technology NSS Unit. We have a moral obligation to preserve nature in all its forms since it is essential to our existence. It's not too difficult to imagine that humans would not live on our lovely world if trees didn't exist. We have also noticed a decrease in pollution and a shift in the purity of the environment. One of the unfavorable side effects of the ensuing industrialization and urbanization is global warming. This occasion is a step in the right direction toward creating a healthy environment, reestablishing human contact with the natural world, and encouraging environmental care.</p>

Program Report

NSS Unit Code	90214620
Title of the Event	Awareness on Mass Immunization
Event Start Date	09.12.2022
Event End Date	09.12.2022
Description	Because mass vaccination programs aim to immunize large people in a short amount of time and are frequently carried out outside of the typical healthcare context, they present unique safety difficulties. Adverse events following vaccination and injection safety are two of the most prominent problems. First, there are additional demands placed on the system by the sheer volume of waste produced and the sheer number of injections that must be given in order to ensure injection safety.

Description	<p>The program for education awareness was held at Nunna ZPHS School on February 16, 2023. A prerequisite for human progress is education. Education can help to raise income levels and employment options. The advancement of education is essential to both national and individual growth. Since education is crucial for growth, the underprivileged groups' ability to grow is hampered by illiteracy and ignorance. The underprivileged youth's lack of education encourages them to participate in informal economic activities as opposed to formal ones.</p>
