PROGRAMME REPORT

Name Of The Programme : **Fundamentals of AUTOCAD and Design Softwares**

Resource Person : **Mr. N. Chandra Sekhara Rao B.Tech., M.Tech., AIIMS MGBS PLANT ENGINEER.**

Objective of the Programme:

- Different windows of AutoCAD
- Understand the functions of AutoCAD
- Learn basic commands to use AutoCAD
- Describe the process of preparing for creating the design brief.
- Describe the process of preparing the design brief.
- To impart fundamental knowledge to students in the latest technological topics on Computer Aided Design, Computer Aided Manufacturing and Computer Aided Engineering Analysis and to prepare them for taking up further research in the areas.
- To create congenial environment that promotes learning, growth and imparts ability to work with inter-disciplinary groups in professional, industry and research organizations

Topics covered

- Introduction to AutoCAD
- Different types of Commands
- Process of creating and modifying 2D mechanical engineering drawings using the CAD system
- Process of creating and modifying 3D mechanical engineering models using the CAD system
- Introduction to the role of a Designer Mechanical
- Part Design Basics
- Ansys of Design Part

Learning Outcomes:

- Demonstrate the process of creating and modifying 2D mechanical engineering drawings using the CAD system.
- Demonstrate the process of creating and modifying 3D mechanical engineering models using the CAD system.
- Demonstrate the process of developing prototypes as per the design brief and carry out testing and production.
