About INSTITUTION

Vikas Group of Institutions established in the year 2010. This institution is one of the best known self-financing integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSID, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

About the DEPARTMENT

Department of Electrical and Electronics engineering was established in the year 2010. Department of Electrical Engineering is one of the oldest branches of engineering.

Department has well established laboratories and other infrastructure facilities.

Department of Electrical engineering is a recognized by JNTUK-Kakinada, and AICTE for having full time B.Tech and post graduate program (M.Tech) in Electrical Power Systems Engineering.

About FDP

A Five Day FDP is aimed at enriching knowledge of faculty and staff of academia about Outcome Based Education in Engineering.

At present, Outcome Based Education for Accreditation is being widely used by leading institutions across the world. It is the ongoing learning transformation. The OBE for Accreditation model aims to maximize student learning outcomes, program outcomes by developing their knowledge & skills.

Outcome Based Education possesses the power to transform the learning experience of students and must be embraced by educational institutions for enhancing their knowledge & skills.

PROGRAM OBJECTIVES:

- >OBE Accreditation for institutions
- >Vision Mission statements
- >About CO'S, PO'S, PSO'S

Topics Covered:

- > Identify Vision, Mission with Institution level.
- > Identify Vision, Mission with Department level.
- >About Course Outcomes, Program Outcomes, And Program Specific Outcomes.
- >About Course Outcomes, Program Outcomes Attainment.

- No. of students enrolled** : 22
- Objective of the Programme** : The Objective of Hybrid Vehicles is, its combine the power and range of conventional vehicles with the advantages of high fuel economy and low exhaust emissions.
- Topics covered** :
1. Definition of Hybrid vehicles
2. Components of Hybrid Vehicles
3. MPTP AND EPTP
4. Advantages and disadvantages of Hybrid vehicles

Learning Outcomes

Students has learned about Energy management systems in hybrid electric vehicles must be properly designed to regulate the power flow between the engine and the battery in order to maximize the vehicle's potential for emission reduction. Students understood that Energy management is not necessary in a traditional (non-hybrid) car because the driver controls the accelerator and brake pedals to determine the instantaneous power delivery and, in manual transmission vehicles, selects the gear that is engaged at all times.

- Objective of the Programme** : The Objective of food technology is to improve the nutritional value and flavor of food, particularly the quick and easy ready-to-eat meals that are a major part of people's hectic modern life.
- Topics covered** : 1.Nutrition and Health.
2.Food Processing.
3.Food Plant Layout & Design.
4.Laws and Quality Assurance
- Learning Outcomes** :
- Students has learned about how to Utilize your understanding of food chemistry, microbiology, engineering, and sensory assessment to create, process, and preserve wholesome, safe, and superior food items. Use cutting-edge tools and technologies to handle, evaluate, and resolve issues with food safety.

Students understood that it entails learning about a variety of food-related topics, including its nutritional makeup, preservation strategies, and packaging methods. Food chemistry, microbiology, quality assurance, and sensory evaluation are some of the subjects you will study.

Students make a note on show that you can utilize computers to address problems related to food science. Use statistical concepts in applications related to food science. Utilize food science concepts to ensure and manage food product quality.

Objective of the Programme : The Objective of Gene Expression is to convert the genetic information stored in DNA into functional products such as proteins, which play essential roles in the structure, function, and regulation of cells and organisms

Topics covered :
1. Transcription
2. Translation
3. Regulation of gene expression
4. Functional consequences

Learning Outcomes :

Understanding gene expression provides crucial insights into how genetic information is utilized by cells and organisms. By studying gene expression, learners gain knowledge about the processes of transcription and translation, which are fundamental for protein synthesis and ultimately influence the phenotype. Moreover, learners explore the intricate regulatory mechanisms that govern gene expression, including transcriptional, post-transcriptional, and epigenetic controls, allowing them to grasp how gene activity is finely tuned in response to internal and external cues. Furthermore, comprehending gene expression offers insights into various biological phenomena such as development, differentiation, homeostasis, and

Email: moni.mech19@gmail.com
Contact No: 8500719874
- No. of students enrolled** : 36
- Objective of the Programme** : The Objective of JAVA is widely used programming language that can be used on several Object Oriented Programming with Java
- Topics covered** : 1. Definition of JAVA
2. Components of JAVA
3. Advantages and Applications of JAVA

Learning Outcomes

Students gained knowledge about Java that it is a widely used programming language that can be used on several platforms such as Windows, Mac, Linux, Raspberry Pi, etc. Additionally, it is exceptionally sought after in the present job market.

It is powerful, quick, and safe; It is open-source and free; It has a large developer community (tens of millions of members); It is easy to understand and use; Java is an object-oriented language that reduces development costs by providing programs with a clear structure and enabling code reuse. Because Java is similar to C++ and C#, programmers can easily transition from C++ to Java and vice versa.

Students understood that Java is a widely-used programming language for coding web applications. It has been a popular choice among developers for over two decades, with millions of Java applications in use today. Java is a multi-platform, object-oriented, and network-centric language that can be used as a platform in itself. It is a fast, secure, reliable programming language for coding everything from mobile apps and enterprise software to big data applications and server-side technologies.

About the Institute

Vikas College of Engineering and Technology established in the year 2010 one of the best known self-financing Integrated Institutions aiming to provide excellence in Engineering, Pharmacy and Management Studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Undergraduate Engineering (Civil, EEE, CSE, ECE, CSE-AIML, D.S and Agriculture) along with PG M.Tech (CSE, VLSID, DECS, EPS, SE and TE), MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of students.

PROGRAM OBJECTIVE:-

The main outcome of this training program to expose the participants to various Power Transmission techniques, applied to contemporary problems in the field of CSE Engineering.

PROGRAM OUTCOMES:-

1. Knowledge indifferent components of JAVA
2. Knowledge MPTP and EPTP
3. Knowledge on applications of JAVA.
