#### About the Institutions

Vikas College of Engineering and Technology, located in Krishna, Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### Programme Objectives:

The main objectives of the program are:

- 1. Object: Environmental Sustainability
- 2. Energy Independence and Security
- 3. Promotion of Clean and Green Technologies
- 4. Economic Growth and Job Creation

#### About the Institute:

Vikas College of Engineering and Technology established in the year 2009 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering & Management studies. It is governed by Saraswathi Vidya Peetham to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE and Agriculture)along with PG M. Tech (CSE, VLSID, DECS, EPS, SE, MD and TE), and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### **About the Department:**

Department of mechanical engineering Was established in the year 2009. Department of mechanical engineering is one of the oldest branches of engineering. Department has well equipped laboratories, Workshops and other infrastructure facilities. Department of mechanical engineering is a recognized by JNTUK-Kakinada, and AICTE for having full time B.Tech and post graduate program (M.Tech) inThermal Engineering & Machine Design.

#### **Program Objectives:**

- Familiarize students with the principles of work study and their impact on productivity and efficiency.
- Equip students with tools like process charts, motion studies, and therbligs to analyze and improve workflows.
- Train students to design workspaces that prioritize human factors and motion economy for better efficiency.
- \* Enable students to use techniques such as rating, allowances, and PMTS to establish accurate work standards.
- Prepare students to implement quality control, inventory management, and maintenance planning for sustained operational success.

#### Topics covered:

Day1: Scientific management-Productivity-Principles of Management

Day2: Advantages of work study to management, Supervisors and workers.

Day3: Method Study: Introduction - Process charts, Critical

Examination, Identification of key activities on process charts

Day4: Diagrams and Templates, Therbligs, Micro motion analysis

**Day5**: Memo motion study. Developing new method - Job survey report writing.

**Day6:** Principles of Motion Economy: Related to human body, work place, equipment

**Day7:** Work Measurement: Work measurement techniques – Rating - Measuring the job

Day9: Standard time - Synthetic data - Analytical estimating

**Day10:** PMTS ,Work factor, MTM, Activity sampling, Its applications

**Day11:** Job Evaluation, Techniques of job evaluation - Merit rating - Incentive plans

**Day12:** Ergonomics: Basics of Ergonomics, Anthropometry, Quality **Course Outcomes:** 

- 1.Understand the factors for low productivity, eliminate them and improve productivity.
- 2. Analyze the existing method of doing work, improve the method by eliminating unwanted steps in the process.
- 3. To measure the work and find the standard time required for doing the work.
- 4. To apply principles of motion economy and make work easier and improve the performance of the workers.

#### **CIRCULAR**

It is planned to conduct an add on Certificate course on "Computer Vision and Image Processing" from 01-08-2023 to 14-08-2023 by Mr. G. Suresh, Assistant Professor, ECE Department from Vikas College of Engineering & Technology to all the IV B.Tech I Sem students of ECE.

Hence students who are interested to attend can register their names with the coordinators on or before 25-07-2023. All registered students must attend the classes without fail. The students who are completed the course successfully will get the certificate from the department.

Venue: Room No: B312

#### **About the Institutions**

Vikas College of Engineering and Technology, located in Krishna, Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### Programme Objectives:

The main objectives of the program are:

- 1. Learning the basic principles of computer vision and image processing.
- 2. Applying mathematical and scientific concepts to computer vision.
- 3. Applying algorithms, Solving problems & Designing computer vision systems.

Objective of the Programme

Computer Vision and Image Processing courses typically have objectives that include:

Understanding the fundamentals: Learning the basic principles of

computer vision and image processing

Applying concepts: Applying mathematical and scientific concepts to computer vision

Using algorithms: Comparing and applying neural-network-based and traditional imaging algorithms

Solving problems: Identifying, formulating, and solving problems in computer vision and image processing

Designing systems: Designing and developing computer vision systems and applications

Working in teams: Working in teams to develop computer vision systems

Using real-world examples: Discussing computer vision applications and challenges in real-world problems

Using programming: Gaining experience implementing computer vision applications through programming

Topics covered

Evaluating literature: Critically reviewing and assessing scientific literature in the field

Conducting oneself professionally: Conducting oneself professionally and responsibly in the areas of computer vision and image processing.

Day 1: Introduction to Computer Vision and Basic Concepts of Image Formation: Introduction and Goals of Computer Vision and Image Processing, Image Formation Concepts.

Day 2: Fundamental Concepts of Image Formation: Radiometry, Geometric Transformations, Geometric Camera Models.

Day 3: Fundamental Concepts of Image Formation: Camera Calibration, Image Formation in a Stereo Vision Setup, Image Reconstruction from a Series of Projections.

Day 4: Image Processing Concepts: Image Transforms.

Day 5: Image Processing Concepts: Image Transforms, Image Enhancement.

Day 6: Image Processing Concepts: Image Filtering, Colour Image Processing, Image Segmentation

Day 7: Image Descriptors and Features: Texture Descriptors, Colour Features, Edges/Boundaries.

Day 8: Image Descriptors and Features: Object Boundary and Shape Representations.

Day 9: Image Descriptors and Features: Interest or Corner Point Detectors, Histogram of Oriented Gradients, Scale Invariant Feature Transform, Speeded up Robust Features, Saliency

Day 10: Fundamentals of Machine Learning: Linear Regression, Basic Concepts of Decision Functions, Elementary Statistical Decision Theory, Parameter Estimation, Clustering for Knowledge Representation, Dimension Reduction, Linear Discriminant Analysis.

(Sponsored by SARASWATHI VIDYA PEETAM)

Day 11: Applications of Computer Vision: Artificial Neural Network for Pattern Classification, Convolutional Neural Networks, Auto encoders.

Day 12: Applications of Computer Vision: Gesture Recognition, Motion Estimation and Object Tracking, Programming Assignments.

#### **Learning Outcomes**

Upon completion of the course the students will be able to acquire variety of skills and knowledge, including:

#### Image processing

Students will learn how to enhance images or extract useful information from them. This can include learning about image filtering, edge detection, and color spaces.

#### Computer vision

Students will learn how to use machine learning and neural networks to teach computers to understand digital images and videos. This can include learning about object detection, image classification, and stereo vision.

#### Problem solving

Students will learn how to identify, formulate, and solve problems in image processing and computer vision.

#### Communication

Students will learn how to communicate effectively with both specialists and non-specialists.

#### **Teamwork**

Students will learn how to work in teams to develop computer vision systems.

#### Research

Students will learn how to critically review scientific literature and apply theoretical knowledge.

#### Professionalism

Students will learn how to conduct themselves professionally and responsibly in the areas of computer vision, image processing, and

deep learning.

Some topics that students will learn in computer vision and image processing courses include:

Representation of digital images

Linear and non-filtering of images

Extracting features from images

Denoising of images

Segmentation of images

Principles of geometric camera models

Imaging with several cameras

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal, Vikas College of Engineering & Technology thanked the resource person & participants for making the program successful.

#### About the Institutions

Vikas College of Engineering and Technology, located in Krishna, Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### Programme Objectives:

The main objectives of the program are:

- 1. Enhance Hardware Design Efficiency through C Programming
- 2. Integrate Software and Hardware Development
- 3. Optimize VLSI Designs for Real-World Applications

#### PROGRAM REPORT

Date: 31-08-2023

Name of the Programme

A Two-Week Certificate Program on "C-Based VLSI Design"

**Programme Dates** 

10-08-2023 to 24-08-2023

**Details of Resource Person** 

Mr. S.Murahari

Assistant Professor

Department of ECE

Vikas College of Engineering & Technology

Nunna, Vijayawada Rural

No. of students enrolled

16

Objective of the

The key program objectives of C-Based VLSI Design are

Programme

1. Enhance Hardware Design Efficiency through C Programming

2. Integrate Software and Hardware Development

3. Optimize VLSI Designs for Real-World Applications

**Topics** covered

Day 1: Introduction to C-Based Hardware Description Languages

(HDLs):

Day 2: High-Level Synthesis and C-Based Modeling:

Day 3: Simulation and Verification of VLSI Designs Using C Tools:

Day 4: Optimization Techniques for Hardware Design Using C:

Day 5: Introduction to Software-Hardware Co-Design

Day 6: Designing Hardware Using C-Based Tools

Day 7: Simulation, Verification, and Debugging for Co-Design

Day 8: Optimizing Co-Design for Real-World Applications

Day 9: Performance, Power, and Area (PPA) Optimization

Day 10: Design Automation and Synthesis Tools

Day 11: Low-Power VLSI Design Techniques

Day 12: Real-World Application Case Studies

(Spoosored by SARASWATHI VIDAA PEFTAM)
(Approved by AICTE, New Delhi & Affiliated to JN IUK, Kakinada)
Certified by ISO 9001:2015:: Accredited by NAAC with 'B+ 'Grade.
NUNNA-521212, Vijayawada Rural, Krishna Dt., A.P. India
E-mail-principal/vect@gmail.com, Website: http://www.vikasinstinutionsminna.org

#### **Learning Outcomes**

By the end of this course, the student will be able to:

- 1. Ability to Model and Simulate VLSI Systems Using C
- 2. Proficiency in Automating Hardware Design Tasks
- 3. Design Optimization Using C-Based Techniques
- 4. Skills in Co-Designing Software and Hardware Components
- 5. Proficiency in Verifying and Debugging Hardware Using Software Tools
- 6. Ability to Optimize VLSI Designs for Performance, Power, and Area
- 7. Proficiency in Using Design Automation Tools for Optimization

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal, Vikas College of Engineering & Technology thanked the resource person & participants for making the program successful.

#### **CIRCULAR**

It is planned to conduct a Certificate course on "Digital IC Design using EDA Tools" from 16-08-2023 to 29-08-2023 by Mr. B. Venkateswara Reddy, Associate Professor, ECE Department from Vikas College of Engineering & Technology to all the III B.Tech I Sem students of ECE.

Hence students who are interested to attend can register their names with the coordinators on or before 12-08-2023. All registered students must attend the classes without fail. The students who are completed the course successfully will get the certificate from the department.

Venue: Room No: B312

Co-Ordinator: Mr. S. Murahari

Circulate to

the Department

electronics & Communication engineering VIKAS COLLEGE OF ENGG. & TECH. NUNNA-52/ 212, Vijayawada Rural NTR Dist., A.P.

1. Staff of the Department ECE. 2. All II, III & IV B. Tech ECE Students.

3. Notice Board & File.

#### **About the Institutions**

Vikas College of Engineering and Technology, located in Krishna, Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership. Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### **Programme Objectives:**

The main objectives of the program are:

- 1. Understand CMOS VLSI technology, including transistor design complexities and power dissipation types.
- Develop proficiency in analog circuit design using Electric VLSI EDA tool, covering circuit schematics/layouts, stick diagrams, and design rules.
- 3. Gain practical experience in designing CMOS logic gates, amplifiers, and oscillators for real-world applications.
- 4. Explore Design Rule Checking (DRC), simulation, and verification techniques using LTspice for CMOS chip design and validation.

#### PROGRAM REPORT

Date: 31-08-2023

Name of the Programme

A Two-Week Certificate Program on "Digital IC Design using EDA

Tools"

**Programme Dates** 

16-08-2023 to 29-08-2023

**Details of Resource Person**:

Mr. B. Venkateswara Reddy

Associate Professor & H.O.D

Department of ECE

Vikas College of Engineering & Technology

Nunna, Vijayawada Rural

No. of students enrolled

37

Objective of the Programme

Digital IC Design using EDA Tools course typically have objectives that include:

1. Understand CMOS VLSI technology, including transistor design complexities and power dissipation types.

2. Develop proficiency in analog circuit design using Electric VLSI EDA tool, covering circuit schematics/layouts, stick diagrams, and design rules.

3. Gain practical experience in designing CMOS logic gates, amplifiers, and oscillators for real-world applications.

4. Explore Design Rule Checking (DRC), simulation, and verification techniques using LTspice for CMOS chip design and validation.

Day 1: Introduction to CMOS VLSI, Introduction to CMOS structures and functionality, IC technology advantages. Moore's Law, technology scaling.

Day 2: crucial role of processors and the intricate process of crafting Integrated Chips from Silica Sand, spanning various stages. MOS transistor design intricacies, covering types and operational modes. characteristics of ideal and non-ideal transistors, including diverse leakage types.

Day 3: Factors impacting transistor performance, like temperature sensitivity and environmental variations. CMOS transistors design, CMOS inverter design, and analysis of power dissipation, noise

Topics covered

(Sponsored by SARASWATHI VIDYA PEETAM)
(Approved by AICTE, New Delht & Affiliated to JNTUK, Kakinada)
Certified by ISO 9001:2015:: Accredited by NAAC with 'B+ 'Grade,

margin, and propagation delay in CMOS designs, encompassing power dissipation aspects and mechanisms.

Day 4: Leakage current sources, low-power design benefits, and factors influencing power consumption. Power reduction techniques, including Dynamic Voltage and Frequency Scaling (DVFS), power gating, and strategies for mitigating short-circuit power consumption.

Day 5: Emphasis is on ultra-low power circuit design, power reduction, and optimization techniques for a holistic understanding of energy-efficient design principles. Overview of CMOS logic gates, addressing PMOS and NMOS transistors design intricacies, series/parallel connections configurations, and practical insights into designing logic gates using CMOS networks.

Day 6: Analog Circuit CMOS Chip Design and Simulation Using Electric VLSI EDA Tool, schematic and layout design of fundamental components and circuits.

Day 7: fundamentals of stick diagrams, outlining the rules governing stick diagram and layout design, and providing a practical example for both stick and layout design. step-by-step procedures for utilizing the Electric VLSI EDA tool.

Day 8: Integration of LTspice with Electric VLSI EDA Tool, layout representations of various electronic circuits, including PMOS, NMOS, CMOS inverter, Common Source Amplifier, Common Drain Amplifier, and a three-stage oscillator, hands-on experience in representation, simulation, and 3D visualization of layout designs for these circuits.

Day 9: The procedures encompass Design Rule Checking (DRC) and Electrical Rule Checking (ERC), followed by NCC checks to ensure the practical implementation of the designs.

Day 10: Digital Circuit CMOS Chip Design and Simulation Using Electric VLSI EDA Tool, layout design of various CMOS logic circuits.

Day 11: Electrical Rule Checking (ERC), and Netlist-to-Component Connectivity (NCC).

Day 12: The design of AND gate, OR gate, their complementary gates, XOR gate, and half adder circuits using the Electric VLSI EDA Tool and their characteristic verifications are done through LT spice software.

#### Learning Outcomes

By the end of this course, the student will be able to:

- 1. Develop a profound understanding of Integrated Circuit (IC) technology, exploring its historical timeline and key inventions.
- Discuss Moore's Law and technology scaling, recognizing the importance of processors in Very Large-Scale Integration (VLSI).
- 3. Gain proficiency in MOS transistors, explaining their types and comprehending their working process, including operational modes of both PMOS and NMOS transistors.
- 4. Describe ideal transistor I-V characteristics and delve into non-ideal transistor characteristics, including leakage currents and their impact on device performance.
- 5. Understand the workings of the CMOS inverter, covering both its static behavior and power dissipation characteristics.
- 6. Explain components and mechanisms involved in CMOS power dissipation, addressing both static and dynamic aspects.
- 7. Explore benefits of low-power design techniques, analyzing factors influencing power consumption, and learning various power reduction techniques.
- 8. Understand the purpose of power gating in reducing overall power consumption and learn techniques to minimize short-circuit power consumption.
- 9. Explain the fundamentals of CMOS logic gates, including the series and parallel connections of NMOS and PMOS transistors.
- 10. Acquire skills in designing basic logic gates using Complementary Metal-Oxide-Semiconductor (CMOS) technology.
- 11. Develop skills in designing CMOS circuits using stick diagrams, creating blueprints for physical layouts adhering to semiconductor manufacturing process design rules.
- 12. Install and set up Electric VLSI EDA tool for VLSI circuit design, exploring components, schematic and layout editors, and conducting essential checks.
- 13. Understand PMOS and NMOS transistor concepts, design schematic and layout representations, perform various checks, and conduct simulations for current-voltage characteristics.
- 14. Grasp the CMOS inverter concept, create schematic and layout designs, and simulate the inverter to analyze behavior and

characteristics.

15. Explore common-source and common-drain amplifiers in analog circuit design, designing schematics, layouts, and performing simulations to analyze performance.

16. Investigate the three-stage oscillator concept, design schematics and layout representations with CMOS inverters, and analyze performance through waveform simulations.

17. Comprehend CMOS NAND gate concepts, design schematics, validate layouts, and simulate for logical behavior analysis with diverse input scenarios.

18. Explore various digital circuit elements and OR gates, XOR gate, and half adder, designing schematics, layouts, and performing simulations.

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal, Vikas College of Engineering & Technology thanked the resource person & participants for making the program successful.

#### **About the Institutions**

Vikas College of Engineering & Technology was established in the year 2008 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering and Management studies. It is governed by Saraswathi Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE, CSE- AIML, CSE-DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and TE), and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### **Programme Objectives:**

The main objectives of the program are:

- 1. To learn about the role of hydroponics in agriculture system.
- 2. To understand the concept of Nutrient Film Technique.
- 3. To evaluate and promote efficient use of water, nutrients & energy in hydroponic farming.

Objective of the Programme

1. To learn about the role of hydroponics in agriculture system.

2. To understand the concept of Nutrient Film Technique.

3. To evaluate and promote efficient use of water, nutrients & energy in hydroponic farming.

Topics covered

: Basics about hydroponics, Role of hydroponics in agriculture system, features of hydroponics system, advantages and challenges of hydroponics system, types of hydroponic systems.

Nutrient Film Technique system, working & importance of Hydroponics-NFT system. Different plants which can be grown in hydroponic system, conditions required for different plants to be grown under hydroponics.

Environmental control and maintenance of required level of water and nutrients at different stages of plant growth.

1

### Learning outcomes

- : 1. Understand the Principles of Hydroponics.
- 2. Knowledge on the concept of Nutrient Film Technique.
- Effective management of water and nutrient needs at different stages of plant growth.
- 4. Master the formulation and adjustment of nutrient solutions.

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal of Vikas College of Engineering & Technology thanked the resource person and participants for making the program successful.

#### About the Institutions

Vikas College of Engineering and Technology, located in Krishna. Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil. EEE. Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES. SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership. Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### Programme Objectives:

The main objectives of the program are:

- 1. Making the electric grid more secure, scalable, and sustainable
- 2. Improving the reliability of power quality and transmission
- 3. Increasing power distribution efficiency and conservation
- 4. Reducing costs for electric utilities
- 5. Reducing expenditures on electricity by households and businesses

Objective of the Programme

The main objectives of the program are:

- Making the electric grid more secure, scalable, and sustainable
- 2. Improving the reliability of power quality and transmission
- 3. Increasing power distribution efficiency and conservation
- 4. Reducing costs for electric utilities
- 5. Reducing expenditures on electricity by households and businesses

**Learning Outcomes** 

- Understand the analysis and planning of smart grids.
- Evaluate the tools for modelling and analysis of smart grid.
- Analyze and synthesize the smart grid operation.
- Assess the influence of distributed generation in smart grid on power systems.

#### **About theInstitute:**

Vikas College of Engineering and Technology established in the year 2009 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering & Management studies. It is governed by Saraswathi Vidya Peetham to encourage aspiring students with very good Academic record. It offers Under graduateEngineering(Civil, EEE, Mechanical, ECE, CSEand Agriculture)along with PG M. Tech (CSE, VLSID, DECS, EPS, SE, MD and TE), and MBA. It has a strongIndustry-Institutepartnership, Entrepreneurship cellandR&D cellto enhancethe practical knowledge of the students.

#### **About the Department:**

Department of mechanical engineering Was established in the year 2009. Department of mechanical engineering is one of the oldest branches of engineering. Department has well equipped laboratories, Workshops and other infrastructure facilities. Department of mechanical engineering is a recognized by JNTUK-Kakinada, and AICTE for havingfull time B. Techandpost graduate program (M. Tech) in Thermal Engineering & Machine Design.

### **ProgramObjectives:**

- \* Familiarizestudentswiththeprinciplesofworkstudyandtheir impact on productivity and efficiency.
- Equipstudentswithtoolslikeprocesscharts, motionstudies, and therbligsto analyze and improve workflows.
- Trainstudentsto designworkspacesthat prioritizehumanfactorsandmotion economy for better efficiency.
- Enablestudentstousetechniquessuchasrating, allowances, and PMTS to establish accurate work standards.
- Preparestudentsto implement qualitycontrol,inventorymanagement,and maintenance planning for sustained operational success.

Objective of the Programme

The main objectives of the program are:

- 1.To understand the importance of material handling and work study
- 2. To learn the Investigational methods and techniques
- 3. To know about the analysis of the product and choice of material handling equipment.
- 4. To take make or buy decisions as a manager
- 5. To know the different methods of investigation, starting investigation, examining the data and taking decisions

#### Topics covered:

Day1: Material handling, Mechanical handling and Types of layout

Day2: Patterns of investigation, manufacture of new products,

expansion of existing business

Day3: Introduction to Investigative methods

Day4: Introduction to various Visualization Techniques

Day5: Material Handling, Analysis of product

Day6: Choice of material Handling Equipment

Day7: Buildings and Layout

Day9: Production and Stock control

Day10: Starting the Investigation, Examining the data

Day11: Preparing the new layout, Installation

Day12: Maintenance and keep it going

#### **Course Outcomes:**

1.Understand the meaning of material handling and various types of plant layouts

2. Understand the impact of plant layout on productivity, operational efficiency, safety, and cost reduction in manufacturing and service industries.

3. Apply principles of effective plant layout design to improve workflow, reduce material handling time, and enhance space utilization.

4. Identify and evaluate different material handling systems and equipment for efficient movement of materials within a plant.

5. Production planning and control

#### **About the Institutions**

Vikas College of Engineering and Technology, located in Krishna, Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### **Programme Objectives:**

The main objectives of the program are:

- 1. Dynamic Adaptation to Changing Environments
- 2. Optimization of Signal Processing Performance
- 3. Application to Real-World Problems

#### **PROGRAM REPORT**

Date: 17-02-2024

Name of the Programme

A Two-Week Certificate Program on "Adaptive Signal Processing"

**Programme Dates** 

: 01-02-2024 to 14-02-2024

**Details of Resource Person** 

Mr. M.S.R.Niranjan

**Assistant Professor** 

Department of ECE

Vikas College of Engineering & Technology

Nunna, Vijayawada Rural

No. of students enrolled

42

Objective of the

The main objectives of the program are:

Programme:

- 1. Dynamic Adaptation to Changing Environments
- 2. Optimization of Signal Processing Performance
- 3. Application to Real-World Problems

Topics covered:

Day 1: Introduction and Fundamentals

Introduction to Adaptive Signal Processing, Mathematical

Foundations, Signals and Noise in Dynamic Environments.

Day 2: Adaptive Filtering Basics

Fundamentals of Adaptive Filters, Least Mean Squares (LMS)

Algorithm, Practical Demonstrations

Day 3: Dynamic System Modeling

System Identification in Changing Environments, Recursive Least

Squares (RLS) Algorithm, Handling Non-Stationary Signals

(Sponsored by SARASWATHI VIDVA PEETAM)
(Approved by AICIE, New Delhi & AIThated to JNTUK, Kakinada)
Certified by ISO 9001:2015:: Accredited by NAAC with 'B+ 'Grade
NUNNA-521212, Vijayawada Rural, Krishna Dt., A.P. India.
E-mail-principal.veet@gmail.com. Website: http://www.vikasmstimtionsmuma.org

#### Day 4: Real-World Adaptation Techniques

Kalman Filtering, Advanced Topics, Practical Session

#### Day 5: Optimization Principles in Signal Processing

Introduction to Optimization in Signal Processing, Mathematical Tools for Optimization, Mean Square Error (MSE), Signal-to-Noise Ratio (SNR), Computational Complexity and Latency

#### Day 6: Improving Adaptive Algorithm Efficiency

Optimizing LMS Algorithm, Optimizing RLS Algorithm, Optimization in noise-canceling headphones, Applications in acoustic echo cancellation.

#### Day 7: Robustness and Stability in Adaptive Systems

Ensuring Robustness, Stability Analysis, Applications in Communication Systems.

#### Day 8: Advanced Optimization Techniques

Multi-Objective Optimization, Machine Learning Approaches in Signal Processing, Optimizing real-world signal processing systems (e.g., medical imaging, radar), Performance evaluation and benchmarking with real datasets.

#### Day 9: Adaptive Filtering in Noise Cancellation

Principles of Noise Cancellation, Applications in Audio Processing, Implementation of ANC using LMS or RLS algorithms, Simulations with real-world audio datasets.

#### Day 10: Adaptive Systems in Wireless Communication

Channel Equalization, Beamforming and Smart Antennas, Application in 5G networks and satellite communications, Practical examples using

(Sponsored by SARASWATHI VIDVA PEFTAM)

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

Centified by ISO 9001:2015°. Accredited by NAAC with 'B+ 'Grade.

NUNNA-521212, Vijayawada Rural, Krishna Dt., A.P. India.

F-imul-principal/veet@ginail.com, Website: http://www.vikasinstitutionsmmna.org

#### software-defined radio (SDR)

#### Day 11: Biomedical Signal Processing

Adaptive Filtering in Biomedical Applications, Applications in Medical Devices, Real-time filtering of biomedical signals using MATLAB, Dataset-based challenges for adaptive noise removal.

#### Day 12: Emerging Applications and Future Directions

Adaptive Signal Processing in IoT and Smart Devices, Machine learning-enhanced adaptive systems, pplications in autonomous vehicles and robotics.

By the end of the course the students will be able to

- 1. Understand Adaptive Techniques
- 2. Implement Adaptive Algorithms
- 3. Solve Real-World Problems
- 4. Enhance Algorithm Efficiency
- 5. Balance Performance Trade-offs
- 6. Apply Optimization to Real-World Scenarios
- 7. Implement Adaptive Algorithms
- 8. Solve Real-World Problems

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal, Vikas College of Engineering & Technology thanked the resource person & participants for making the program successful.

#### **CIRCULAR**

It is planned to conduct a Certificate course on "AI-Based Antenna Design Optimization" from 16-02-2024 to 29-02-2024 by Mr. G. Suresh, Assistant Professor, ECE Department from Vikas College of Engineering & Technology to all the III B.Tech II Sem students of ECE.

Hence students who are interested to attend can register their names with the coordinators on or before 10-02-2024. All registered students must attend the classes without fail. The students who are completed the course successfully will get the certificate from the department.

Venue: Room No: B311

Co-Ordinator: Mr. S. Murahari

#### Circulate to

- 1. Staff of the Department ECE.
- 2. All II, III & IV B. Tech ECE Students.
- 3. Notice Board & File.

#### **About the Institutions**

Vikas College of Engineering and Technology, located in Krishna, Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership. Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### **Programme Objectives:**

The main objectives of the program are:

- 1. Integrate AI Techniques into Antenna Design
- 2. Optimize Antenna Performance Parameters
- 3. Design Antennas for Modern Applications

### PROGRAM REPORT

Date: 31-08-2023

Name of the Programme

A Two-Week Certificate Program on "AI-Based Antenna Design

Optimization"

**Programme Dates** 

: 16-02-2024 to 29-02-2024

**Details of Resource Person** 

Mr. G. Suresh,

Assistant Professor

ECE Department

Vikas College of Engineering & Technology

Nunna, Vijayawada Rural

No. of students enrolled

37

**Objective of the Programme** 

The main objectives of the program are:

1. Integrate AI Techniques into Antenna Design

2. Optimize Antenna Performance Parameters

3. Design Antennas for Modern Applications

**Topics** covered

Day 1: Introduction to Antenna Design and AI Fundamentals

Day 2: Machine Learning Basics for Antenna Design

Day 3: Optimization Algorithms for Antenna Design

Day 4: Neural Networks in Antenna Design

Day 5: Fundamentals of Antenna Performance Optimization

Day 6: Genetic Algorithms (GA) for Antenna Optimization

Day 7: Particle Swarm Optimization (PSO) and Hybrid Techniques

Day 8: Advanced Optimization for Real-World Applications

Day 9: Antennas for 5G and Beyond

Day 10: IoT and Wearable Antennas

Day 11: Reconfigurable and Smart Antennas

Day 12: Advanced Applications and Future Trends

(Sponsored by SARASWATHI VIDYA PEETAM)
(Approved by AICTE, New Delbi & Affiliated to JNTUK, Kakhiada)
Certified by ISO 9001:2015:: Accredited by NAAC with 'B+' Grade.
NUNNA-521212, Vijayawada Rural, Krishna Dt., A.P. India
E-mail-principal veet⊚gmail.com, Website, http://www.vikasinstitutionsimma.org

**Learning Outcomes** 

By the end of the course the students will be able to

1. Apply AI Algorithms to Antenna Design Challenges

2. Develop AI-Driven Workflows for Antenna Optimization

3. Enhance Antenna Efficiency through Optimization Techniques

4. Balance Multi-Objective Trade-Offs in Antenna Design

5. Develop Antennas for Emerging Technologies

6. Integrate Advanced Techniques for Specialized Applications

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal, Vikas College of Engineering & Technology thanked the resource person & participants for making the program successful.

#### About the Institutions

Vikas College of Engineering and Technology, located in Krishna, Andhra Pradesh, is a prominent institution specializing in engineering and technical education. Established in the year 2008, affiliated to Jawaharlal Nehru Technological University Kakinanda. It is governed by Saraswati Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and MD) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### Programme Objectives:

The main objectives of the course are

- 1. Understand the Fundamentals of Adaptive Modulation and Coding
- 2. Analyze and Implement AMC Algorithms
- 3. Evaluate the Impact of AMC on Wireless System Performance

### PROGRAM REPORT

Date: 22-02-2024

Name of the Programme

A Two-Week Certificate Program on "Adaptive Modulation and

Coding"

**Programme Dates** 

: 07-02-2024 to 20-02-2024

Details of Resource Person

Mr. B. VENKATESWARA REDDY

**Assistant Professor** 

Department of ECE

Vikas College of Engineering & Technology

Nunna, Vijayawada Rural

No. of students enrolled

29

Objective of the

The main objectives of the course are

Programme

1. Understand the Fundamentals of Adaptive Modulation and Coding

2. Analyze and Implement AMC Algorithms

3. Evaluate the Impact of AMC on Wireless System Performance

Topics covered

Day 1:: Introduction to Adaptive Modulation and Coding

Day 2: Modulation Techniques

Day 3: Channel Coding Fundamentals

Day 4: Integration of Modulation and Coding

Day 5: Fundamentals of AMC Algorithms

Day 6: Algorithm Implementation Techniques

Day 7: Advanced Techniques in AMC Algorithms

Day 8: Practical Implementation and Case Studies

Day 9: Key Performance Metrics in Wireless Systems

Day 10: AMC's Impact on System Reliability

Day 11: AMC and Resource Optimization

Day 12: Advanced Topics and Real-World Applications

(Sponsored by SARASWATHI VIDYA PEETAM)

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)

Certified by ISO 9001:2015.: Accredited by NAAC with 'B+ 'Grade,

NUNNA-521212, Vijayawada Rural, Krishna Du, A.P. India

F-mail-principal/vcet@gmail.com. Website: http://www.vikasinstitutionsnunna.org/

#### **Learning Outcomes**

- : By the end of the course the students should be able to
  - 1. Understand the Fundamentals of Adaptive Modulation and Coding
  - 2. Analyze the Relationship Between Channel Conditions and Modulation/Coding Choices
  - 3. Analyze and Implement AMC Algorithms
  - 4. Evaluate the Performance of AMC Algorithms
  - 5. Assess the Influence of AMC on Wireless System Metrics
  - 6. Analyze AMC's Role in Enhancing System Reliability and Efficiency

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal, Vikas College of Engineering & Technology thanked the resource person & participants for making the program successful.

#### About the Institutions

Vikas College of Engineering & Technology was established in the year 2008 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering and Management studies. It is governed by Saraswathi Vidya Peetam to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE, CSE- AIML, CSE-DS and Agriculture) along with PG M. Tech (CSE, ES, SSP, PEED, SE and TE), and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

#### Programme Objectives:

The main objectives of the program are:

- 1. To educate students with various Fertilizer application methods and their relevance in agriculture.
- 2. To empower students with different types of spraying equipment.
- 3. To enhance the efficiency of fertilizer application

Objective of the Programme

- The finance function refers to practices and activities directed to manage business finances. The functions are oriented toward acquiring and managing financial resources to generate profit
- The financial resources and information optimized by these functions contribute to the productivity of other business functions, planning, and decision-making activities
- Companies use retained earnings from business operations to expand or distribute dividends to their shareholders.
- Businesses raise funds by borrowing debt privately from a bank or by issuing debt securities to the public.
- 5. Companies obtain equity funding by exchanging

ownership rights for cash from investors.

#### Learning Outcomes

- Develop among the students the qualities of entrepreneurship and give the ideas about modern business strategies
- Provide the ideas related to various fields like Banking Sector, Insurance Sector, Marketing, Advertising, Income tax, E-Commerce etc.
- This program develops trained professionals for the industries, banking sector, insurance companies, investment & finance companies to meet the manpower requirements
- 4. The students will gain the knowledge, skills and attitude of managing banking and finance at the end of the degree course.

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal of Vikas College of Engineering & Technology thanked the resource person and participants for making the program successful.

Objective of the Programme

- Communication is the foundation of effective teamwork. Whether you're working on a presentation with your classmates or spearheading a new project at work
- Time management, accountability and responsibility are all equally important for your career as they are in your academic life
- Effective problem solvers are able to think outside the box when challenges or issues arise. Rather than focusing on negative outcomes
- 4. Recognize what effective teamwork looks like.
- 5. Understand how to practice effective teamwork.
- 6. As well as enhance your own skills. If you treat each group project as a learning experience

#### **Learning Outcomes**

- sometimes a different approach or a new idea can help achieve better results Social Awareness
- Critical thinking allows you to make better, more informed decisions. It can be tempting to follow along with whatever the group decides, or what one team member believes is the best course of action, but sometimes a different approach or a new idea can help achieve better results.
- 3. when department and across departments can help spread knowledge and resources
- 4. Value effective teamwork

The course is very useful to the students and their feedback is positive. The management and Dr. B. Ramana, Principal of Vikas College of Engineering & Technology thanked the resource person and participants for making the program successful.
